SUMMARY

- I am software developer who focuses on writing clean, elegant and efficient codes.
- In my latest projects, I developed a fully-functional e-commerce application. I designed it using HTML5 & CSS3, implemented frontend by React/Redux and built the backend using Node & MongoDB.

SKILLS

- Front-End: JavaScript, React , Redux, SASS, HTML5, CSS(flex-box and grid)
- Backend: Node , Express, PHP ; Database: MySQL and MongoDB
- Exposure: C++ and Java

EDUCATION

CUNY: Queensborough Community College, New York.   Graduated June 2020
Tech-works *Software Engineering*
Completed CUNY Software Engineering program with coursework:
- Introduction to Engineering and Technology
- Web technology:Building and maintaining Sites
- Web client Programing , Design and Implementation
- Creating Smart Phones Apps with Android Studio
- Algorithms and Computer Architecture

EXPERIENCE

Freelance Software Development   January 2020 - Present
Software Engineer

E-COMMERCE - STORE | LIVE | CODE
- Built a fully functional E-commerce MERN Application that allows users to sign up, rate products, add to the shopping cart and purchase using PayPal or credit card.
- Learned SPA development using MERN stacks
- Admin login (username: contact.remy@ninganzaremy.com   Password: Admin1990)

RESTAURANT APPLICATION | LIVE | CODE
- Built a Restaurant Application that allows users to create account, login, make reservations and Admin interface to manage all restaurants.
- Learned User authentication and Admin interface implementation
- Admin login (username: contact.remy@ninganzaremy.com Password: Admin1990)

JPMorgan Chase & Co   October 2019 - December 2019
Software Engineering Virtual Intern
Accomplished practical task modules in:
- Establishing Financial Data Feeds
- Frontend Web Development
- Data Visualization with Perspective
- Certificate

AT services, New York.   July 2017 - September 2019
Help Desk support
- Provided technical assistance and report for incoming queries and issues related to computer systems
